

LLumar window film creates an open, squint-free zone in any room of your home.

## Welcome in the Outdoors

Say goodbye to darkened rooms and hello to the sun. With LLumar® window film, you can open window coverings wide. You can even choose to have no blinds, shades or draperies at all. Our window film helps temper the sun's undesirable heat, glare and UV rays so you're free to let natural light into any room, any time.

When you have LLumar window film, you can let the sunshine in while reading an e-book, watching TV or exploring online. LLumar helps reduce glare, making your home's interior easier on the eyes.

REDUCED GLARE

# Choose the Level of Light in your Home

Enjoy your home's interior to the fullest with varying shades of film. LLumar window film helps reduce glare making it easier for you to feel connected with your beautiful views.
